

# WEATHER FORECAST

LITTLE VALLEY / CATTARAUGUS COUNTY, NY — JEREMY FULLER, METEOROLOGIST — JUNE 16, 2017

FRI	SAT	SUN	MON	TUES	WED	THURS
						
JUNE 16 78	JUNE 17 62 / 82	JUNE 18 65 / 82	JUNE 19 62 / 75	JUNE 20 55 / 72	JUNE 21 52 / 70	JUNE 22 58 / 75
						
JUNE 23 58 / 72	JUNE 24 55 / 70	JUNE 25 52 / 68	JUNE 26	JUNE 27	JUNE 28	JUNE 29

## FORECAST DISCUSSION:

- Mostly dry conditions will dominate, with temperatures not quite as oppressive as they were this past week. Enough humidity will still be in the atmosphere to cause some discomfort (particularly in the sun) and some showers.

- A cold front is in the forecast for late Sunday and into the overnight of early Monday. That should wipe out most of the overly hot conditions (high temperatures behind the front are mostly in the low 70s) for the foreseeable future.

Conditions are likely to be predominantly dry for most of the week. There's much less certainty as to what happens after that.

### NORMALS & ALMANAC FOR JUNE 16-25:

High temperature: 75...77 — Low temperature: 51...53

Sunrise: 5:38...5:40am — Sunset: 8:54...8:56pm
